

Digital. Delivered.

Real transformation. From real people. For real life.

Harness the real power and potential of the cloud, with Kainos.

Whatever stage your organisation has reached on its digital journey, you're almost certainly aware of the cloud and its enormous power, potential, and flexibility in enabling better services and experiences for your customers. **Cloud adoption and utilisation isn't a one-size fits all process.**

There's a great deal to consider before cloud-reliant operations can run on a 'business-as-usual' basis. From selection, planning and procurement to design, build and roll-out.

That's why, in order to fully embrace the cloud's true scope and benefits, and to properly mitigate any risk, you need an expert by your side. One with the knowledge, experience and expertise to fully harness and channel the cloud and make it complement and dovetail smoothly with your operations. **Kainos is one such expert.**

Combining a unique 'blended teams' approach with industry-leading multi-disciplinary expertise and experience across a plethora of cloud technologies and vendors, we can support you through every stage of your cloud journey, from its earliest steps to the delivery of key metrics to ongoing refinement, and then on to plotting your future cloud strategies.

Why Kainos?

With 30 years experience, more than 70 of the UK's high profile digital transformation projects delivered in just 4 years, and one of the largest WebOps offerings, Kainos carries an unrivalled breadth and depth of cloud expertise.

Kainos named as Microsoft UK Partner of the Year 2018

In recognition of a partnership that continues to go from strength to strength, Kainos was recently named one of Microsoft's Country Partners of the Year 2018. Singled out among a global field, Kainos was presented with the prestigious award for its ongoing excellence in Microsoft solution innovation, implementation, business impact, and customer engagement and satisfaction.

"We are honoured to recognize Kainos of the UK as a Microsoft Country Partner of the Year. Kainos has distinguished itself as a top partner, exemplifying the remarkable expertise and innovation we see in our Microsoft partner community to deliver transformative solutions."

Gavriella Schuster, Corporate Vice President, One Commercial Partner, Microsoft Corp.

Migration and mitigation: how Kainos helped the Department for Work and Pensions (DWP)

Having decided to migrate its 'Tell Us Once' (TUO) service to the cloud, the DWP needed to meet several key imperatives – to overhaul aging and legacy infrastructure, to reduce costs, and to mitigate risk – and it charged Kainos with ensuring a smooth, incident-free migration.

Helping the department move critical service functions in-house and delivering a trouble and interruption free transition for its users, Kainos:

EMPLOYED A 'LIFT AND SHIFT' APPROACH, EVOLVING ITS EXISTING PHYSICAL STATE TO A VIRTUAL, CLOUD-HOSTED ONE

WAS RESPONSIBLE FOR BOTH IMPLEMENTATION AND INTEGRATION

SAFELY AND SUCCESSFULLY COMPLETED THE ENTIRE PROCESS IN JUST 8 WEEKS...

...AS WELL AS MAINTAINING EFFECTIVE TRAFFIC FLOWS THROUGHOUT THE MIGRATION, INCLUDING INTENSIVE SECURITY MONITORING

...DELIVERED A STABLE, GLITCH-FREE, 'AS NORMAL' CLOUD-BASED SERVICE FROM DAY ONE

Our cloud services

Kainos cloud services offer organisations a whole spectrum of cloud-enablement options and benefits:

- A dynamic strategy and roadmap for cloud adoption, based on best practice for your specific organisation
- A layered approach based on risk, TCO, and performance
- An innate appreciation and understanding of every application in your portfolio, ensuring cloud viability in each instance
- A selection model that identifies the right cloud services provider for your organisation across a range of criteria such as capability and commercial benefit
- Extensive choice across SaaS, IaaS, and PaaS
- Full automation of a range of processes, reducing operational risk and IT service costs
- Fast, flexible, innovative end-user services that harness the agility of cloud-native technologies

- Proven, best practice workload migration processes
- A 'just in time' provisioning model for maximum return on investment. You spend only what you need
- In-depth user insights with real-time dashboards for faster, more effective decision making

With you during your cloud journey

With Kainos it's **Digital. Delivered.**

Whether your organisation is taking its first steps towards the cloud, migrating workloads into it, or trying to leverage greater value and efficiency from it, Kainos has the proven experience and expertise to deliver the value and the tangible, measurable operating outcomes you need.

Partnering and collaborating closely with you to create a single, cohesive team that drives down costs and complexity and drives up agility, productivity, and speed to market, when it comes to journeying through the cloud there is no more experienced or expert guide.
